Identity Europa in the Pacific Northwest - Jacob Labudda, Chad M Jerald Jr, Nicholas Williams, and Bogdan Gerasimiyuk

Fri, Mar 8, 2019

Unicorn Riot recently released the chat logs of the white nationalist group

Identity Europa (IE) began in 2016, as a project founded by [Nathan Damigo](#). The focus was on mass-movement building among white, college-age youth, typically framed in terms of white “[Identitarianism](#)”, and influenced by European organization Generation Identitaire, or Generation Identity. A significant part of IE’s messaging has focused on shifting away from openly racist rhetoric, and establishing a respectable facade for their organization by claiming that they merely support “pro-white” positions. However, this hasn’t stopped IE organizers or members from planning and engaging in violence, publicly promoting carefully-phrased racist and anti-Semitic talking points, and privately trading in overtly racist memes despite their leaders’ calls for careful optics.

Membership applications arrived in huge numbers after Damigo [attacked a counter protester](#) in Berkeley in April of 2017, alongside members of the “[Rise Above Movement](#)”. Identity Europa was also deeply involved in planning the fascist and white supremacist “Unite the Right” rally in Charlottesville, in August of 2017, which resulted in the death of Heather Heyer and injury to 19 others. A [leaked internal document](#) instructed IE members to expect “to have a large number of friendly people attend this rally ranging from Alt-Lite, Oath keepers, Proud Boys, and Trumpists to Identitarians, Neo-Confederates, national socialists and other Alt Right groups.”

Rose City Antifa has reported on local IE affiliates in the past. [Jacob Ott](#) was a fixture at many local Patriot Prayer events until he was doxxed by Rose City Antifa, and went [underground](#). A group of fascists centered around the remnants of the [Portland State University Students for Trump](#), including Ethan Devries, Cody Bussard, Matt Duffy, Natasha Mazur, Eric Steele, Stephen Johnston, Tylor Phelps, and Liam Wynn also were present at [Patriot Prayer events](#), and had many ties to Identity Europa. This fits in with the stated mission of the group, to recruit white, predominantly male, college students and encourage them to go out and conduct racist propagandizing and political “activism.” As [reported by Unicorn Riot](#), racist, anti-Semitic, and Nazi content is rampant on the server:

Another area where Identity Europa’s basis in fascist and Nazi ideology betrays itself is their attitudes towards Jewish people. While the organization only allows white people to be members, this does not include Jews, who Identity Europa considers to be non-white. Discord user ‘FACINEMA’ asked the group “were you asked if you were of non-semetic heritage during your interview? I

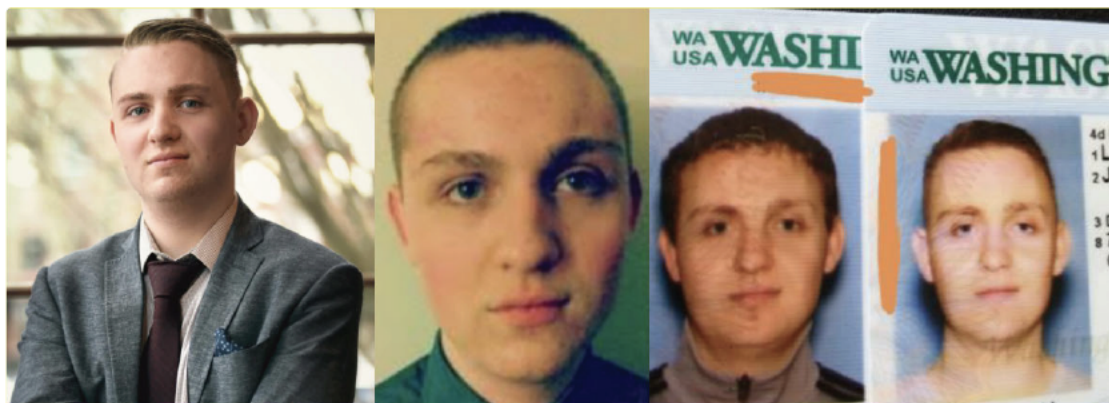

and we screen for this during the interview process.” A search of Identity Europa’s chat logs shows that members have mentioned the ‘JQ’ or ‘Jewish question’ over 150 times.

Recently, after the initial bad publicity caused by the exposure of members like Damigo, Ott, James Allsup and others, IE has attempted to implement a stricter vetting process. People pursuing membership in the organization must complete two consecutive face-to-face interviews with senior IE members within their geographic region. After their first interview, they gain baseline access to main IE Discord channels, and then once second interview is completed at a later date, they’re granted full access and member privileges within the various IE Discord chats. In the Discord channels, Identity Europa members across the country plan propaganda campaigns for various colleges, regional networking meet-ups, and other activities such as supporting white supremacist GOP politician, Steve King.

Along with other anti-fascists working in the region, Rose City Antifa has identified these members of Identity Europa from the Discord chat logs, and would like to present these white supremacists to their communities.

Known as “Jacob” on the Identity Europa Discord Server

Name: Jacob Labudda

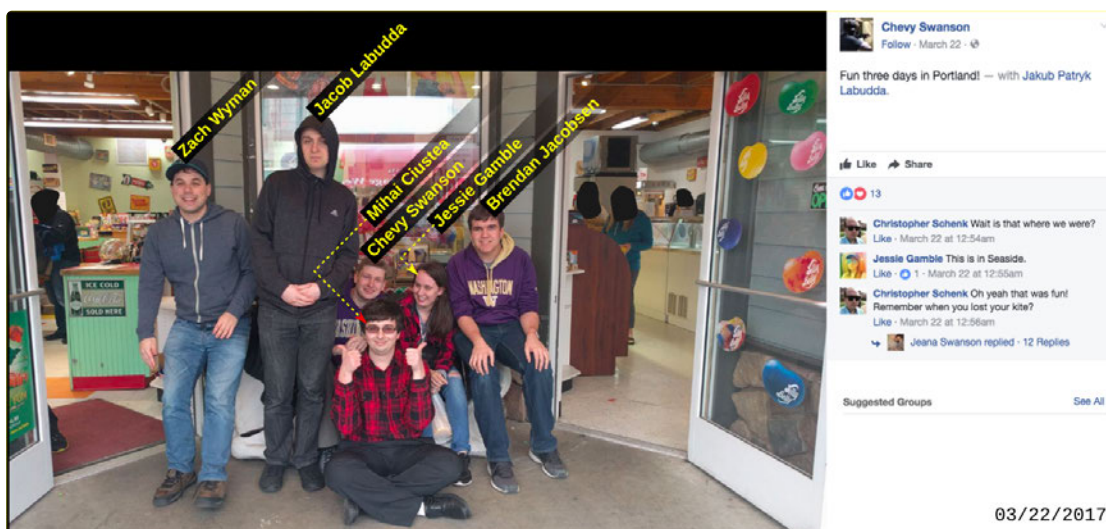

Location: Cheney, WA

DOB: 07/13/1997

Facebook: <https://www.facebook.com/5945z> archive

Clocking in at 15,807 messages, Jacob Labudda made approximately 150% more posts than the next-most-prolific user in white nationalist group Identity Europa's "Nice Respectable People Group" logs. Labudda credits the cementing of his white nationalist radicalization to Jared Taylor's American Renaissance publication, and says that he prefers Identity Europa to Europe's "Generation Identity" organization because IE is able to be more explicitly racist. By his own telling, Labudda joined Identity Europa in February of 2017. During that academic year, he attended University of Washington and was an active member of UW College Republicans from Fall 2016 through the Spring of 2017, making him a UWCR member when a far-right activist shot an IWW member outside the January 20, 2017 College Republicans event featuring neo-Nazi collaborator Milo Yiannopoulos. Labudda is only one example of a common pattern of far-right radicalization via engagement with local College Republicans (CRs) chapters; the logs clearly show that Identity Europa recognized, and has intentionally orchestrated, connections with right-wing campus organizations as part of their overall recruitment strategy.

Jacob Labudda is pictured hanging out with fellow UW College Republicans Chevy Swanson, Jessie Gamble, Mihai Ciustea, Brendan Jacobsen, and Zach Wyman a month after he joined white nationalist organization Identity Europa

After a year at UW, Labudda transferred to Eastern Washington University in Cheney, WA, where he began to regularly put up racist Identity Europa propaganda materials on numerous college campuses in the area, including his own. By himself, or with one or two other local IE members, Labudda was responsible for a large percentage of the Identity Europa posters and stickers that appeared on the following campuses over the past two years: Gonzaga University, Washington State University-Spokane, Eastern Washington University, Spokane Community College, Spokane Falls Community College, Washington State University, and (when he was still in the area) University of Washington. He also posted frequently in chats with his fellow Identity Europa members about each round of his white nationalist flyering, making fun of the

Labudda also revealed that his fellow white nationalists within Identity Europa were behind one of the many far-right “false flag” hoaxes constructed to smear local anti-fascists and leftists. This one which popped up in Seattle in early 2017, involved a convoluted plot to claim that leftists consider craft beer to be a white supremacist phenomenon via a coordinated flyer/sticker campaign and painfully awkward fake antifascist blog. These hoaxes generally fool no one aside from adherents of the far-right, who have trained themselves to believe anything that gives license to their bigoted impulses.

In September of 2018, Labudda mentioned in the Discord that he had been featured on the Identity Europa Twitter account but hadn't been doxxed yet, apparently referring to a June 1, 2018 tweet which showed members of the fascist organization engaging in disingenuous "community outreach" in Spokane, WA. He also specifically mentioned having deactivated his personal Facebook page shortly before attending this "Spokane event," presumably in order to avoid being doxxed via comparisons of his social media photos and any images of him at that event that might end up on Identity Europa's social media.

Chad M Jerald Jr. is a undergraduate Physics major at WSU in Pullman, WA, the alma mater of disgraced white nationalist GOP infiltrator James Allsup, who, according to Jerald, personally recruited him to become a member of Identity Europa based on their friendship within the WSU College Republicans. Discussion in the logs between various Identity Europa members throughout the Pacific Northwest makes it clear that Allsup maintains ongoing relationships with regional College Republicans chapters. Jerald is a current member of the WSU College Republicans, and states in the logs that he uses this affiliation as cover to attend white supremacist and fascist gatherings, like this year’s Identity Europa national conference.

I'm just gonna say it's for a political conference but I'm already in the college Republicans so it's easy for me

Chad Jerald states that he uses his membership in the College Republicans as cover for attending fascist meetups and conferences.

Chad Jerald makes it abundantly clear in the logs that he considers the College Republicans— as a political group— bland and ineffectual, and therefore a fertile ground for recruiting receptive young adults into white nationalist organizations like Identity Europa.

Chad Jerald and Jacob Labudda discuss the internal politics of UW College Republicans, name-dropping both Chevy Swanson and Jessie Gamble.

Jerald is also a member of Turning Point USA, an organization riddled with scandals over the barely-disguised racism of its membership. In December of 2018, Jerald elected not to meet up with any local Identity Europa members while in Miami at the yearly TPUSA conference, because not all of the TPUSA members he was traveling with were . He did make it clear, though, that at least one other person in his TPUSA traveling party was an Identity Europa member.

Like many far-right activists, Chad Jerald idolizes particularly brutal agents of state enforcement and repression like ICE and Border Patrol. In October of 2018 while discussing details of another upcoming Trump-inspired WSU College Republicans "Border Wall" event on campus, Jerald mentions that "we called into ICE and we're going to try and get them to come do a show of power". Jerald also mentions purchasing— and seeking out provocative circumstances to wear— a U.S. Border Patrol hat whose description matches

The discord logs show that Chad Jerald also wore his Border Patrol hat when he went on a road trip with fellow Identity Europa fascists to hold a racist banner at various sites in Montana including the Flathead County Courthouse, the Conrad Mansion Museum, Whitefish Depot, Woodland Park, and the Flathead County Veterans Memorial.

Chad Jerald is clearly visible among other Identity Europa fascists in Kalispell, MT.

Also like many current far-right activists, Chad Jerald claims to be a recent convert from leftist and socialist politics into explicit white nationalism. He also states his intentions to turn his girlfriend into a white nationalist.

Portland-area Identity Europa member Nicholas Williams is currently a senior at Tualatin High School, who plans to major in Petroleum Engineering at a university in Colorado next year. He holds the office of Northwest Territory Region Vice President in Oregon Future Business Leaders of America. In the months before he officialy joined Identity Europa, Williams also frequently participated in the closed Facebook group of the violent far-right organization Patriot Prayer.

Nicholas Williams was also apparently oblivious to the clear level of collaboration between the Portland Police and the violent bigots, fascists, white nationalists, and neo-Nazis who make up Patriot Prayer. He can be seen imitating the complaints of far-right, fascist-enabling hucksters like Joey Gibson in the screenshots from the Patriot Prayer Facebook group shown here.

Selections from Williams' participation in the Identity Europa Discord logs show his continued radicalization and immersion into Identity Europa's white nationalist and neo-Nazi politics—a process that began for Williams, unsurprisingly, with his exposure to the work of blandly esoteric self-help writer and “intellectual dark web” denizen Jordan Peterson.
